**PERSONAL STATEMENT: Please address the following questions in 300 words or less: 1. What is your personal vision? 2. How would you lead the Section? Where do you feel the Section is going?**

I have been a PT for 16 years and working in the area of women's health for over 13 years of my career. I built a practice in the area of women's health for my former employer and when they sold the business, I decided to open a clinic for myself. I have grown that now to 2 locations employing 7 therapists and 2 office staff. My vision is to continue to grow locally as I feel we are still only treating the tip of the iceberg and would also like to grow into other communities in IL and maybe even other states. My vision is 2-fold from a perspective of growing my business to be very financially secure for my own family and the families of those I employ but also to serve more women in need of our specific specialized services. I have been involved in the section on women's health as a lab assistant since 2013 and also served on the CAPP OB committee.

I love the opportunity to teach, but it also provides an opportunity to learn from my other colleagues. I am very excited about the opportunity to serve as treasurer as I get energized about growth opportunities and strategizing. I thoroughly enjoy strategic planning and working towards bigger and better opportunities.

I feel I can be a valuable asset as I can objectively assess numbers, trends, and budgeting to help the board effectively plan the near and distant future of the section.
