Previous Involvement in the APTA or State Chapter or other Sections:

I have been an APTA member since PT school (I believe I joined in 1992)

I am an orthopedic and home health section member and have been for many years

PERSONAL STATEMENT: Please address the following questions in 300 words or less: 1. What is your personal vision? 2. How would you lead the Section? Where do you feel the Section is going?

1. My personal vision is to passionately promote pelvic floor health, awareness and resources to everyone, everywhere, in every language. To accomplish this goal, I am sharing, collaborating, and creating resources with pelvic health therapists all over the world. Digital technology is the primary medium through which I am focusing my efforts, but I would also like to develop additional national and international face to face opportunities to advance pelvic health.

2. In my role as a nominating committee member, I would help connect qualified candidates with appropriate positions within the section. I would also provide input and support to other SoWH initiatives, programs, and goals.

3. The section on women's health is on the cusp of being the worldwide leader in pelvic health promotion and advancement. I would welcome the opportunity for additional involvement to help achieve this goal.
